MF DIGITAL

Director 2000 Publishing Series

Highest Performance Production System

On Demand, Mission Critical, Affordable

MF Digital's highest throughput, highest performance production solution is the Director Series. Get the power to burn discs-on-demand to seamlessly connect your users with a centralized CD/DVD production station.

The Director is ideal for disc publishing applications such as medical, banking and finance where mission critical equipment is required to deliver on-demand results. With detailed job logs and database export features MF Digital gives you the control for a lights-out publishing system while providing tools to conduct complete audit trails.

Unlike any other solution, the Director Series is the industries lowest cost-per-print publishing system with the greatest amount of flexibility in configuration options.

Let our publisher do more for you; experience the future with MF Digital.

Retransfer	Photo Realistic, Better than Silk-Screen

Director 2000 Publishing Series

Ideal for On Demand Disc Duplicating

The Director Series is ideal for burning unique discs on demand. Capable of processing up to four individual discs simultaneously the Director is extremely efficient. Never before has a disc publishing system been this advanced. For example, Director uses a unique "spindle select" technology so both CD and DVD recordable media can be present - ready for any job sent to the system.

Exclusive API Technology

The included API toolkit allows the Director Series to be easily and seamlessly integrated into an existing custom application. Integrate your new system into a pre-existing software solution within hours not weeks.

Network Ready

Never before has it been this easy to launch a network wide disc publishing system. Every Director System comes with license free Windows XP client software. This client software gives network users the ability to make one-off unique discs or submit jobs for 100's of copies, all simultaneously.

Print Options for Your Exact Needs

MF Digital offers a verity of disc printing solutions for your disc publisher. For economical, full color printing we over the PicoJet inkjet printer, for quick disc printing speed we offer the Prism thermal printer and for photo realistic images which yield better resolution then silk-screen we offer the P55 dye-sublimation printer.
